For individual units – the first text box titled Comment is pre-populated with content from the CAT tool, so staff may only need to add a short sentence at the end. This is dependent on what has come from the CAT.

You will also see at the top a menu bar like so:

This tells you that you are currently viewing the incomplete submits, the report name, the class, the teacher, the student and how many have been completed.

Following the Comment is the rubric component for the Unit. These are drop down statements.
